Student Name

Student Signature

Date Signed

Please check this box to confirm you have discussed this plan with the faculty project / thesis advisor you have listed below, and that they have confirmed that they are willing and able to serve as the research advisor for this thesis / project.

Faculty Project / Thesis Advisor Name

In order to be officially enrolled in a CSE Master's Project or Thesis by the add/drop deadline you must:

1. Register yourself for the CSE598 / 599 section of your Faculty Project / Thesis Advisor.
2. Submit this form, filled out, to the CSE Graduate Coordinator (benos@wustl.edu) at least 72 hours before the add/drop deadline.
3. The CSE Graduate Coordinator will then attach this form to the School's DocuSign form, and your faculty project / thesis advisor and your faculty academic advisor will sign, and you will be enrolled in the proper course.

If this form is emailed to the Graduate Coordinator within the final 72 hours before the add/drop deadline, we can not guarantee you will be enrolled in time, due to processing times for the School's DocuSign form.
